The specific character of Wrocław's architecture has been commented on many occasions. Authors stress an original combination of material and spiritual factors, noting the existence of numerous religious institutions, monasteries, Gothic churches, and Baroque colleges side by side with commercial establishments (there were several dozen department stores and specialty shops in Wrocław at the turn of the century) and other splendid, often pioneering examples of secular urban architecture.

Good infrastructure and sport facilities have significant input in organisation of many sport events on high level. Furthermore lot of connections with big Polish and European cities offered by Wrocław airport, well developed train and bus transportation, big number of hotels and restaurants make the arrival and stay in the city easier.
